Economy Car Trailer Range

For customers looking for a trailer to a particular budget we stock a wide range of Economy trailers which are built to the highest quality, using galvanised steel and wisa-a-deck resin plywood floor. The construction and materials used ensure a strong robust trailer which combines low maintenance, strenght and offering a low un laden weight which makes for excellent towing and ease of handling.

Key Features

All trailers come complete with full regulation lighting system, galvanised steel construction and are supplied with two types od suspension depending on size of gross towing weight.

500 Kg Trailers are fitted with independant suspension axles

750 Kg Trailers are fitted with 5 leaf spring suspension

Our spare parts department stock a large range of accessories including Mesh Sides, Jockey Wheels, Prop Stands, Spare Wheels, etc.
